APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. A measuring device must be installed and maintained near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The measuring device must be installed before any use of water begins, or before the Proof of Completion of Work is filed. The State retains the right to regulate the use of the water herein granted at any and all times.

The permit granted herein carries with it no provision or guarantee for the continuous use or availability of the water since the source is from mine dewatering.

This permit will expire when mine dewatering ceases and no further use of water under this permit shall be made.

A quarterly report shall be submitted to the State Engineer within 15 days from the end of each quarter showing how much water went to the place of use.

The total combined diversion of Permits 53261 and 55839 shall not exceed 55.0 cubic feet per second.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed..... 23 cubic feet per second.

Work must be prosecuted with reasonable diligence and be completed on or before..... November 26, 1992

Proof of completion of work shall be filed on or before..... December 26, 1992

Application of water to beneficial use shall be made on or before..... November 26, 1995

Proof of the application of water to beneficial use shall be filed on or before..... December 26, 1995

Map in support of proof of beneficial use shall be filed on or before..... December 26, 1995
